Subject: Null Load of Test Encounters

As mentioned in last weeks Consortium meeting we are considering the "null" load (wipeout all information) of the Encounter bases in our test environment to allow for more efficient processing of batch cycles and to allow the Health Plans a clean starting point for ongoing Encounter Testing.

We would like to consider performing this "null" load next Monday, December 20th. Please let us know if you have questions or concerns about this process and/or the timeframe.

Thanks!
